

According to federal laws and regulations, a family's 2009 income is used to assess financial need for the 2010-11 school year. If a family's 2010 income will be lower due to special circumstances, the financial aid administrator may be able to use 2010 income to assess financial need. If the financial aid administrator review of your special circumstances establishes that you are eligible for additional federal aid, your award will be modified accordingly. This form is to be completed only by the parents of dependent students, or independent students and/or their spouse. If you are unsure as to the completeness of your documentation or if you need clarification on any of the above, please speak to a financial aid representative prior to submitting any documentation.

You must have completed 2010-11 Free Application for Federal Student Aid (FAFSA).
